

REGULATORY CONSULTING

PRISM'S CERTIFICATION CONSULTANTS LEVERAGE THEIR EXPERIENCE TO ENSURE COMPLIANCE WITH AVIATION SAFETY STANDARDS AND REGULATIONS

The regulatory landscape is becoming increasingly complex with Civil Aviation Authorities being required to meet a growing number of international safety requirements.

PRISM has the expertise to assist regulatory authorities in improving the effectiveness of their aviation safety oversight systems by implementing policies, programs and regulations consistent with ICAO Standards and Recommended Practices.

AVIATION SAFETY OVERSIGHT SYSTEMS

PRISM has the experience to assist Civil Aviation Authorities with the effective implementation of ICAO's Universal Safety Oversight Audit Programme (USOAP) protocols.

PRISM CERTIFICATION CONSULTANTS SPECIALIZE IN THE FOLLOWING SERVICES:

- Development of capabilities in all of the Critical Elements of an aviation safety oversight system
- Addressing ICAO Universal Safety Oversight Audit Programme findings and Significant Safety Concerns
- USOAP audit preparation and gap analyses to ensure adherence to revisions to ICAO provisions

STATE SAFETY PROGRAMMES

PRISM consulting services can facilitate the implementation of ICAO Annex 19 Standards and Recommendation Practices by assisting CAAs with:

- Customized SSP training for CAA leadership and staff
- Oversight of safety management system implemented by airlines, airports, air navigation service providers, and approved maintenance organizations
- Development of SMS regulatory requirements and SMS oversight capabilities
- Aviation safety reporting systems and safety information sharing initiatives
- Policies and procedures to appropriately protect safety information used to support safety management activities
- Development and implementation of strategies to meet SSP safety performance targets and ICAO Global Aviation Safety Plan objectives

QUICK FACTS

PRISM Consulting offers a full-spectrum, holistic approach to assist CAAs in meeting their safety oversight obligations:
