

ARGUS UAS RATINGS

FLY CONFIDENTLY WITH ARGUS RATED UAS OPERATORS' UNWAVERING COMMITMENT TO THE HIGHEST STANDARD

The ARGUS Unmanned Ratings program is the industry's most respected, unbiased, and detailed third-party UAS operator analysis. The ARGUS Ratings due diligence program offers commercial UAS operators, vendors, and purchasing authorities around the world the confidence and peace-of-mind desired for their UAS operation.

ARGUS' UAS Ratings program is the only rating system in the on-demand UAS arena that uses a proprietary method to score each operator based on their fact-based historical incident and accident information. The main components that comprise the ARGUS rating include historical safety analysis, aircraft validation, remote pilot background checks, and onsite safety audits (for Platinum and Gold Plus operator ratings).

NOTHING COMPARES TO THE POWER OF DUE DILIGENCE THAT ARGUS UNMANNED RATING PROVIDES

ARGUS UAS Ratings provide the most sought after third-party validations for the largest and most sophisticated buyers of on-demand UAS flight services in the world.

ARGUS Rated UAS operators boast a proud reputation amongst their competitors, and have flown countless safe, secure, and reliable flights in a wide variety of industry-specific missions around the globe.

- Legitimacy of a UAS operator
- Safety history of the operator
- Liability insurance confirmation
- Aircraft associated with each certificate
- Remote pilot training and experience
- Remote pilot certifications
- Remote pilot background check completion
- Operational control of each flight
- Proof of business legitimacy
