

ARGUS International, Inc. is Growing *Tech Lead Position Available*

ARGUS International, Inc.: Founded in 1995, ARGUS is the worldwide leader in specialized aviation services that allow organizations around the globe to improve their operational and business decision making. Our mission is to exceptionally deliver relevant and valuable information solutions to the Business Aviation, Air Carrier, Rotary Wing, UAS, and the overall Aerospace marketplace.

ARGUS is currently seeking a Tech Lead to join our team. This position will work at our Denver, CO location. As the Tech Lead at ARGUS, you bring a unique blend of leadership and engineering skills to deliver an exceptional technical vision and execution. Candidates should possess in-depth knowledge of iterative development tools and processes, enterprise-level engineering best-practices, a proactive and positive engagement style, and a proven ability to orchestrate complex engineering work across multiple development teams. Day-to-day, this critical role is responsible for the architecture, development, testing, and deployment of our 3 software platforms.

Individual responsibilities will include, but not be limited to, the following:

- Provide a strong technical direction for the engineering team
- Establish the technical vision for the core ARGUS applications
- Conduct code reviews and pair program
- Scope and estimate technical requirements
- Educate and mentor other engineers
- Provide technical project leadership, evangelize the development processes, and collaborate closely with marketing and the business teams
- Work with stakeholders to craft, present, review, and implement candidate architecture proposals
- Gather high level requirements from marketing insights, user input, business leadership, and other data analysis, to be integrated into our product roadmap features

Minimum requirements:

- 7+ years' experience in software development, with 3+ years in leadership positions
- Understanding of architecture and how software fits into the overall system
- Strong leadership skills and the ability to lead a team of engineers
- Advanced understanding and experience with Angular 8+ and TypeScript
- Solid understanding of RxJS
- Deep understanding of Computer Science fundamentals including object-oriented design, data structures, algorithm design, problem solving and complexity analysis
- Strong understanding of HTML, CSS and JavaScript
- Experience building, documenting, and supporting robust RESTful APIs
- Knowledge of both relational and non-relational databases, experience preferred
- Advanced Git knowledge (branches, submodules, rebasing)
- Familiarity with agile/scrum development processes and methodologies

Why Chose ARGUS? Full time benefits will include; 401K Match, Medical/Dental/Vision Insurance, Paid Vacation and Holidays, Flexible Schedules, Gym Reimbursement, Competitive Salary with Casual Atmosphere.

ARGUS is an equal opportunity employer.
